Industrial Training

All Second Year students done inplant training (duration 6 week) from 3/06/2024 to 13/07/2024 Training Mentor had collected consent letter of parents/guardian of these students as date 02/05/2024 .Training industry and letter are collected by respective Mentor of each student.

One day workshop on Advance PCB Design

Industrial Visit at Airport Authority of India Birshi on date 2/3/2024

Editorial Committee:

Mrs.P.H.Gedam

Lecturer in Electronics & Telcomm. Engineering.

Inside This Issue:

Lab Development-

- Our department has developed 8051 Simulator Android app for conduction of practical of Microcontroller subject.
- Our department has developed virtual lab for Power Electronics Subject

Youtube Channel 3 staff members have made their channel with a total of 200 + videos and one you tube channel for department

Placement had been done at John Deere Pune 25 students from EJ got selected

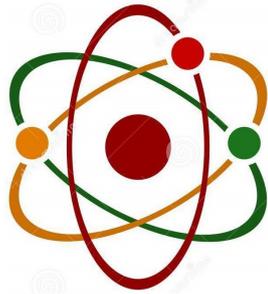

Engineers day celebration by EJ Dept.

Academic Year 2023-24

Volume 3 Issue 1

Department of Electronics and Telecommunication

VISION

To develop skilled, ethical and self-motivated Electronics & Telecommunication Engineering technicians for serving needs of industries and society.

MISSION

- To impart high quality Electronics & Telecommunication engineering education and professional ethics to students
- To adopt the best pedagogical methods in order to maximize knowledge transfer
- To have adequate mechanisms to enhance understanding of implementation of theoretical concepts in practical scenarios.
- To provide the best facility, infrastructure, and environment to the students and faculty members, creating an ambience conducive for excellence in Electronics & Telecommunication engineering education.

Program Educational Objectives (PEOs)

- **PEO1:** Provide socially responsible, environment friendly solutions to Electronics and Telecommunication engineering related broad-based problems adapting professional ethics.
- **PEO2:** Adapt state-of-the-art Electronics and Telecommunication engineering broad-based technologies to work in multidisciplinary work environments.
- **PEO3:** Solve broad-based problems individually and as a team member communicating effectively in the world of work.

Program Objectives (POs)

- **PO1:Basic and Discipline Specific Knowledge:** Apply knowledge of basic Mathematics, Science, Engineering fundamentals and engineering specialization to solve the engineering problems.
- **PO2:Problem Analysis:** Identify and analysis well-defined engineering problems using codified standard methods.
- **PO3:Design/Development of Solutions:** Design solutions for well-defined technical problems and assist with the design of systems components or processes to meet specified methods.
- **PO4:Engineering Tools, Experimentation And Testing:** Apply modern engineering tools and appropriate technique to conduct standard tests and measurements.
- **PO5:Engineering Practices for Society, Sustainability And Environment:** Apply appropriate technology in context of society, sustainability, environment and ethical practices.
- **PO6:Project Management:** Use engineering management principles individually, as a team member or a leader to manage projects and effectively communicate about well-defined engineering activities.
- **PO7:Life-Long Learning:** Ability to analyse individual needs and engage in updating in the context of technological changes.

Program Specific Objectives (PSOs)

- **PSO1:** Electronics and Telecommunication Systems: Maintain various types of Electronics and Telecommunication systems.
- **PSO2:** EDA Tools Usage: Use EDA tools to develop simple Electronics and Telecommunication engineering related circuits.
